About me

I am 23 years old and I like data science with a focus on machine learning. In my spare time I enjoy watching movies and swimming. Learning new skills is very rewarding to me so I am open to challenges. My biggest assets are my knowledge of Python and R and my ability to work in a team.

Skills

Python ●●●●●

R ●●●●●

Perl ●●●●●

Linux ●●●●●

Education

2017 - Present **Ghent University**
Msc. Bioinformatics - Systems Biology

2014 - 2017 **Ghent University**
Bsc. Biochemistry and Biotechnology

Master Thesis

2017 - Present **Ghent University - Department of Mathematical Modelling and Data Science**
Uncovering promoter-sigma factor binding using massive parallel sequencing and machine learning algorithms

Internship

jul - aug 2018 **Ablynx**
Writing a Python package within BioPython to parse the output of nanobody annotation.

Language

Dutch	Fluent (Native language)
English	Fluent (Bilingual language)
French	Advanced
